1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) claims 31-33 have been canceled

2. The following is an examiner's statement of reasons for allowance:

The BPAI made a determination that it is not inherent that the finger shield of applied prior art, Marinesse, would lift and impart spin and velocity to the ball while releasing the ball. The BPAI stated that the finger shield provides more control to the ball by providing a frictionless release of the ball and, therefore, the reference is silent to providing lift and more spin to the ball. The BPAI also concluded that Marinesse does not disclose anything regarding controlling the ball as it is being released.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
